

What are my big goals?	Which goals need to happen first?	When do I want to achieve this?	What obstacles might get in my way?	How can I improve my chances of meeting my goal?	Where can I go for support?	Review: How am I doing?
Learn html, css, Js and show good results	<ol style="list-style-type: none"> 1. Know what learning outcomes should I have 2. Work at least 4 hours a week 	On the end of each phase	<ol style="list-style-type: none"> 1. Wrong task scheduling 2. Doing things on the last 3. Deciding to do too much work 	By following the schedule I made and never postponing	First I should search for results on google, then I can search on youtube, ask a friend, finally if I did not find I will ask the teacher	So far I believe I am doing good however I have to improve my speed and methods, I should ask more question.
Make good page layouts	<ol style="list-style-type: none"> 1. I should focus on all class of this course 2. I should search more on design laws. 3. Update my knowledge on trendy websites and designs 	As soon as possible	<ol style="list-style-type: none"> 1. Adding many elements 2. Doing things on the last 	By following the schedule I made and never postponing	First I should search for results on google, then I can search on youtube, ask a friend, finally if I did not find I will ask the teacher	I think I am missing alot and I should improve the connection between the designs of the pages
